

TANJIM MUSTAK ERAM

Computer Science & Engineering Student · Builder of end-to-end web systems

Dhaka, Bangladesh • 01972644744 • tanjimeram2001@gmail.com • github.com/TanjimEram • [LinkedIn](#)

PROFILE

Third-year Computer Science & Engineering student at North South University who likes shipping real software end-to-end. Designed and built production web systems used by hundreds of people — including marxcellence.com, the live registration and check-in platform for Bangladesh's largest digital marketing case competition. Comfortable reasoning through a problem from first principles to deployment, and eager to go deeper into backend engineering.

EDUCATION

BSc in Computer Science & Engineering

North South University

2022 – Present

Higher Secondary (Science)

Adamjee Cantonment College

2019 – 2021

SKILLS

Programming & CS: Python, C/C++, Java (coursework); data structures & algorithms, OOP.

Web & Backend: JavaScript, HTML/CSS, PHP; WordPress (custom snippets & integrations); REST/HTTP, SQL databases.

Tools: Git & GitHub, Figma, Power BI, Microsoft 365.

Currently learning: Go, FastAPI / Django, Docker.

LANGUAGES

English: Fluent (IELTS 7.5)

Bangla: Native

ACHIEVEMENTS

- **Top Contributor**, Marxcellence 2025.
- Championship wins & MVP/Best Player awards across 10+ football tournaments.
- 1st–3rd place in 50+ national & regional art competitions (incl. Toyota Dream Car Art Contest).

PROJECTS

Marxcellence Event Platform — marxcellence.com^{2025 – 2026}

Designed & built end-to-end (self-hosted WordPress + custom code)

- Built the live registration and event platform for **Marxcellence**, Bangladesh's largest digital marketing case competition — a fully custom flow most case-competition organisers don't run themselves.
- Implemented a custom registration system with automated email confirmations, server-side data validation, and a QR-code check-in workflow for on-site verification.
- Wrote custom PHP/JavaScript snippets to enforce business rules (e.g. one-team-per-person uniqueness, typo guarding on submitted data) and integrated third-party email and spreadsheet services.
- Owned the stack: hosting, security hardening, and CDN/caching configuration for a public, high-traffic launch window.

NSU MIBC Website — nsumibc.org

^{2024 – 2025}

Designed & developed end-to-end (WordPress)

- Built and maintain the official club website: responsive multi-section layouts, custom interactive features, and site-wide performance optimisation.
- Debugged and fixed real production layout/feature issues across desktop and mobile.

EXPERIENCE

Sub-Executive Body Member — NSU MIBC

^{2023 – Present}

Web & Systems · Cross-team coordination

- Help organise Intra-Ignite and Marxcellence, coordinating across logistics, creative, sponsorship, and technical teams.
- Serve as the go-to person for the club's web and registration systems — owning them from build through live operation.

Founder — XeroHour (E-commerce)^{2023 – 2024}

End-to-end ownership of a student fashion-watch brand

- Independently launched and operated the brand; grew it to **5,600+ followers** and processed **2,000+ orders** at a 90%+ satisfaction rate.
- Owned the full loop: sourcing, pricing, marketing campaigns, and customer service — learning how a real system breaks under load and how to keep it running.
